- searchFeedUserFeed.js
  - renders list of user result on the page.

- searchFeedUserFeedItem.js
  - renders list of user result on the page

9. Setting

- settings.js
  - renders the setting's content on the main page

10. Component

This folder includes some public component for all other folders. We only have navbar is public component right now.

- Navbar.js
  - renders the navbar's content on the main page. The navbar includes links to other pages. All pages include navbar components.

Bugs:

- The search result, notification is mock up.
- Inviting friends is not possible
- Chat cannot change between different users, and cannot auto scroll to the latest message.
- Cannot join activities.
- Cannot detect the activity sponsor is the current user
- User is not able to log out

Most bugs exist because we are using mock data and server right know, and we will try to fix it with real server and database.

Contribution:

- All members contributed to server.js and database.js
